

## Appendix H: 2030 Park-and-Ride Plan

### Metropolitan Council 2030 Park-and-Ride Plan

The Park-and-Ride Plan is part of the ongoing planning and implementation for transit service and facilities in the region. Several policies in the 2030 Transportation Policy Plan address transit facilities, such as Policies 12 and 14 and strategies 12a and 14e.

Chapter 7 of the 2030 Transportation Policy Plan is the long range transit plan for the region. While it includes some general discussion of existing and planned park-and-ride facilities in the section titled Transit Passenger Facilities, the Park-and-Ride Plan is intended to go a step further and serve as a more detailed guide to selecting, prioritizing and implementing those facilities.

The 2030 Park-and-Ride Plan is available online at:
