Interagency Water Monitoring Initiative

Background	1
New MCES Monitoring Programs	1

Metropolitan Area Watershed Outlet Monitoring Program

Introduction	3
Site Descriptions	3
Site Construction and Monitoring Equipment	3
Monitoring Procedures	3
Conventional Pollutant Monitoring	
Rating Curve Development	
Cooperative Monitoring Partnerships	6
Local Monitoring Partners	
United States Geological Survey (USGS)	
Data Reporting	6
Contact Information	7

Mercury and PCB Inputs to the Minnesota River Monitoring Program

Introduction	8
Site Descriptions	8
Little Beauford Ditch	
Little Cobb River	
Le Sueur River	
Blue Earth River	
Minnesota River at Judson	
Minnesota River at St. Peter	
Site Construction and Monitoring Equipment	9
Site Preparation	
Platforms and Shelters	
Sampling Lines and Analytical Probes	
Utility Connections	
Automonitoring Equipment	

Monitoring Procedures	14	
Mercury Monitoring		
PCB Monitoring		
Conventional Pollutant Monitoring		
Rating Curve Development		
Cooperative Monitoring Partnerships	19	
Minnesota Department of Agriculture (MDA)		
United States Geological Survey (USGS)		
Minnesota Pollution Control Agency (MPCA)		
Local Cooperators		
Data Reporting	20	
Contact Information	20	
Budget		
Combined Programs - Costs to Date	21	
Appendices		
Appendix A	“MCES Watershed Outlet Monitoring Program Sites and Cooperators”	23
Appendix B	“MCES Methodology for PCB Analysis”	26
Appendix C	Location Coordinates for all MCES Automonitoring Stations	30
