

**Agenda**  
**Groundwater Modeling Technical Advisory Group**  
**Metropolitan Council – M94 Office Park**  
**January 17, 2008**  
**1:00 – 3:00 PM**

**Purpose:** Demonstrate progress on regional groundwater flow model calibration and discuss use of the calibrated model for water supply availability analyses

**Outcomes:**

- General understanding and agreement regarding model use for water supply availability analysis
- Group consensus regarding model calibration strategies for problem areas
- Commitment by attendees to review and test draft model files

**Introductions**

**Flow Model Demonstration & Discussion** – Ray Wuolo, Barr Engineering Company

**Model Review/Testing**

- Request for volunteers
- Process for sharing results

**Next Meeting** – ***TO BE DETERMINED***, Metro94 Office Park

**Adjourn**

**NOTE:**

To participate in the 2008 winter synoptic water level measurement Mar. 16-29, contact:

Sue Langer: 763-783-3140 slanger@usgs.gov

Chris Sanocki: 763-783-3151 sanocki@usgs.gov

Lanya Ross: 651-602-1803 lanya.ross@metc.state.mn.us

The USGS will incorporate data collected at all wells, if it is submitted with a drilling log and the well inventory field sheet provided by the USGS.
