

# Commercial Laboratories, Sampling Companies, & Consulting Firms

Metropolitan Council Environmental Services (MCES) maintains the following list as a convenience to Industrial Users of public sanitary sewers. The information below was supplied by the following companies and is not necessarily a complete list. This is in no way an endorsement of any commercial laboratory, sampling company, or consulting firm. MCES advises Industrial Users to always evaluate the methods and accuracy of the provided services. Sample collection, preservation, and analysis must conform to the MCES Waste Discharge Rules and EPA-approved methods. (Note: The reference to 'sampling' below refers to the setting up of automatic samplers. All companies may be able to take grab samples.)
