<u>Interagency Water Monitoring Initiative</u>	1
Background	1
IWMI Progress During the 2004 – 2005 Biennium	3
<u>MCES and MSU-Mankato Water Monitoring Programs</u>	5
Metropolitan Area Watershed Outlet Monitoring Program	5
Minnesota River Watershed Monitoring Program	5
<u>Metropolitan Area Watershed Outlet Monitoring Program</u>	6
Introduction	6
Monitoring Program Design	8
Monitoring Site Locations and Descriptions	8
Monitoring Activity and Analyses	12
Cooperative Monitoring Partnerships	15
Local Monitoring Partners	15
New Partnerships with Watershed Districts	15
Data Management and Reporting	16
Use of WOMP Monitoring Data	16
Contact Information for the Metropolitan Area Watershed Outlet Monitoring Program	18

Minnesota River Watershed Monitoring Program	19
<hr/>	
Introduction	19
Monitoring Site Locations and Descriptions	21
Monitoring Equipment	23
Conventional Pollutant Monitoring	24
Rating Curve Development	27
Initial Results: Conventional Pollutant Monitoring	28
Cooperative Monitoring Partnerships	29
Minnesota Department of Agriculture (MDA)	29
United States Geological Survey (USGS)	29
Minnesota Pollution Control Agency (MPCA)	30
Minnesota State University-Mankato	30
Local Cooperators	30
Data Management, Analysis, and Reporting	31
Contact Information for the Minnesota River Watershed Monitoring Program	31
Monitoring Lessons Learned	32
